EARTHING & GROUNDING CONNECT WITH PURE SOURCE LOVE

Physically connecting with Mother Earth is called “Grounding.” The positive effects of grounding daily are impressive such as reducing or curing chronic ailments, lessening stress and anxiety, enhancing joy, love, gratitude and an overall sense of well-being and belonging. In Japan medical doctors recommend Tree Therapy.

Spending time in nature is a medically proven antidote for healing PTSD, grief, loss, pain and sorrow. Researchers have identified Universal Healing Frequencies emanating from the Earth. These positive, loving EMFs are measured at 528 hz and termed “Miracle Love Tones.” Mother Nature is filled with infinite abundance. Spend time in nature and connect with deep eternal love and endless creativity.

Another way to feel Pure Source Love is through Conscious Universal Meditations, Gregorian Chants, Chimes, Didgeridoos, Crystal Bowls, Classical Flutes, Piano and other uplifting musical instruments. Solfeggio Tones are wonderful healing aids. For more information on healing with frequencies, please visit www.Rontheinventor.com

Water researcher, Dr. Masaru Emoto from Tokyo, Japan discovered that the power of Love and Gratitude can heal polluted waters. Dr. Emoto photographed close-up pictures of water and proved uplifting phrases such as “I Love You” “Thank You” “Please Forgive Me” and “I Am Sorry” healed water exposed to radiation and pollution.
